On behalf of our homeowners, the South Mountain Homeowners Association wishes to express our concern over the issue of expansion of mining operation at the Point of the Mountain Quarry.

At least one, and potentially more than one residential development, are built into the mountain on land that may be prone to landslides. There are also businesses on both sides of the mountain that could be adversely impacted by various mining activities especially blasting.

We are therefore requesting that Geneva Rock voluntarily undertake additional testing to protect the large number of property holders who could be negatively affected.

Sincerely yours,

Joan M Little-Brock
